

Hippocratic Oath & Artificial Intelligence

AI holds the potential to enable providers to more closely embody the Hippocratic Oath

HIPPOCRATIC OATH TENETS:

- Practice medicine to the best of one's ability →
- Share knowledge with other physicians →
- Employ sympathy, compassion and understanding →
- Help to prevent disease whenever possible →
- Respect the privacy of patients →

Artificial Intelligence Can:

- Improve decision making
- Democratize best practices
- Help providers focus on the patient
- Proactively identify at-risk patients
- Protect privacy with safe data practices
